Washington, D.C. 20204

Dear Dr. Yetley:

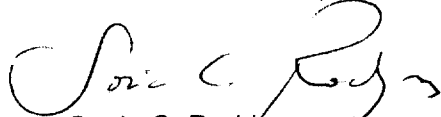

Notice is hereby given pursuant to the requirements of Section 403(r)(6)(21 U.S.C. 343(r)(6) of the Federal Food, Drug and Cosmetic Act of statements of nutritional support which have been made on the label and/or in the labeling in connection with the marketing of the dietary supplement PROHERBS LIVER DETOX. PROHERBS LIVER DETOX will be first marketed with these statements of nutritional support on Monday, April 3, 2000. The statements of nutritional support are as follows:

"Protects liver from drinking, smoking and environmental pollutants"

"Protect your body against harmful toxins from drugs, alcohol, tobacco and environmental pollutants with a complete Liver Detox formula that combines clinically tested ingredients. **Milk Thistle**, also known as Silymarin, helps protect normal liver function and aids in the regeneration of liver cells damaged by toxins from foreign substances. **Turmeric** helps maintain proper digestion and supports toxin elimination. Without **N-Acetyl-L-Cysteine**, the liver cannot produce a key anti-toxin substance that continually filters out harmful substances. **DL-Methionine** helps to detoxify harmful agents such as lead and other heavy metals. Include Liver Detox in your daily nutrition for a healthier you"

Very truly yours,

MASON VITAMINS, INC.
